

What is Google Forms?

Google Forms is a form building tool for creating surveys, polls, quizzes or for planning events. Google Forms enables you to easily share your form via a web link to collect responses, and analyze the results as well as downloading or sharing them.

To create a Google Form you will first need to have a Google Account (a Gmail email address). For further information on setting up a Google account, please see our Guide to Using Google Drive.

How to Create a New Google Form

- 1 Go to <https://www.google.co.uk/forms/about/>
- 2 Click 'go to Google Forms'
- 3 Sign in to your Google account when prompted
- 4 To create a new form click 'blank'
- 5 On the blank form, click 'Untitled Form' to give your form a title.

Or, from Google Drive:

If you're already logged in to your Google account, you can create a new Google Form from Google Drive.

- 1 From your Google Drive, click 'new'
- 2 Hover your cursor over (or on a tablet/ smartphone tap) 'more'
- 3 Select 'Google Forms'

A blank Google Form will open.

Shuffle option order

When Google Form responses are submitted they are collated in a Google Sheets spreadsheet. Before responses can be collected the spreadsheet must be linked to the Google Form. The guidance below explains how to link your Google Form to a spreadsheet.

1. Click 'responses' (located at the top of the Google Form).
2. Click the options menu icon.
3. Select 'select response destination'.
4. Choose 'create a new spreadsheet and name your spreadsheet, or 'select existing spreadsheet'.
5. Click 'create'.

Sharing a Google Form

From your Google Form, click 'send' (at the top of the page).

This will open a window with a selection of sharing options including sending via email, sharing via web link, embedding the form onto a web page and sharing via social media.
