

Moodle Guide: How to Print a Marked Assignment

1. Log in to Moodle and select the relevant course from the 'my learning' section on the dashboard.

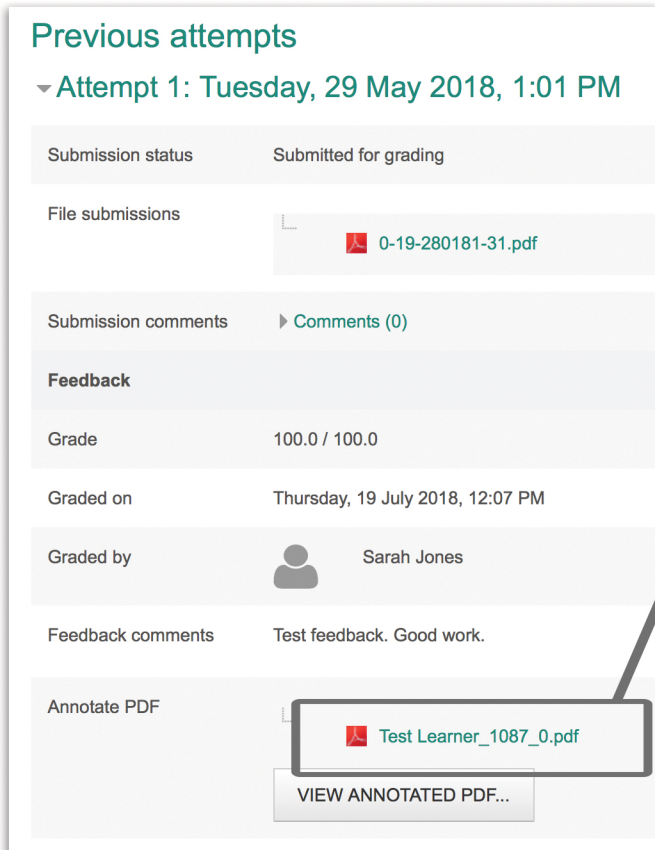

The screenshot shows the Moodle dashboard for Sarah Jones, logged in as 'Test Learner'. The dashboard includes a navigation menu with options like 'My Dashboard', 'Messages', 'Courses', 'My Cloud', 'Community', 'Learner Zone', 'Staff Zone', 'Help', and 'English (en)'. The main content area is divided into several sections: 'Latest News' with recent forum posts, 'My Learning' which highlights a 'Test Course' with assignments needing attention and new forum posts, 'Award in Education and Training' with new forum posts, 'Online users' showing Sarah Jones as the only user in the last 10 minutes, and a 'Calendar' section. A 'CUSTOMISE THIS PAGE' button is visible in the top right of the dashboard area.

2. Select the relevant assignment within the course.

The screenshot shows the content of a Moodle course. It starts with an 'Announcements' section. Below that is 'Topic 1', which contains two assignments: 'Assignment 1: Essay' and 'Assignment 2: Create a Presentation'. Underneath 'Topic 1' is 'Topic 2', which contains a document titled 'test doc'.

3. Scroll down the page and select the PDF file under the 'annotate PDF' heading.

4. The file will download onto your device. Once downloaded, open the file and print in the usual way by selecting 'file' and 'print'.
