MS Teams Live Events:
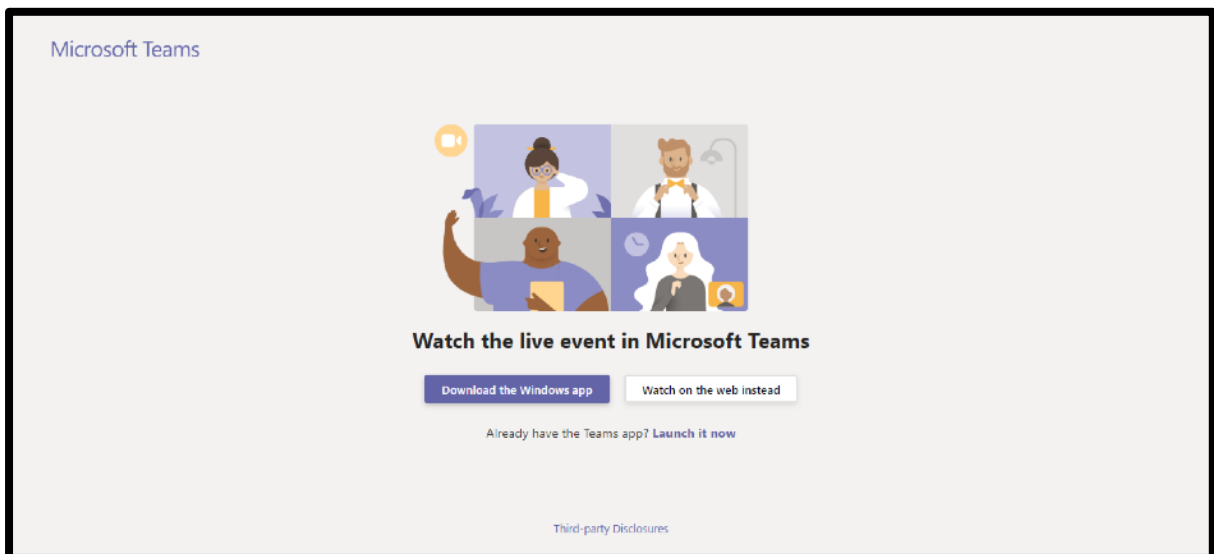

# How to Join a Live Event as an Attendee

Device Compatibility

Attendees can join a Live Event via the MS Teams desktop app, mobile app or watch via the web.
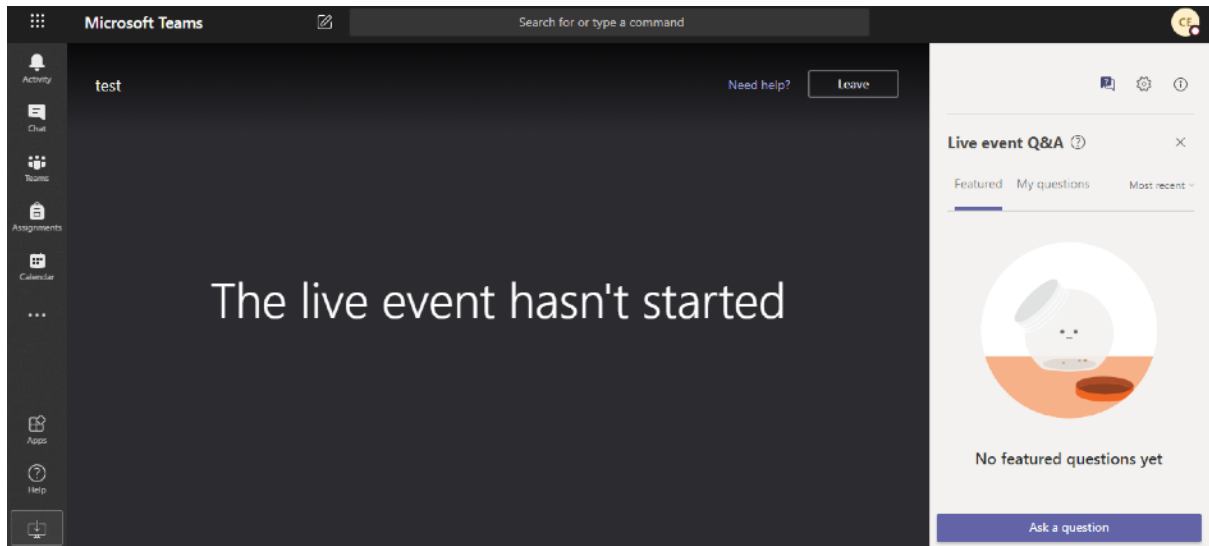

Live event instructions for Attendees:

1. You will be sent a link to join the event. Click on the relevant link to launch MS Teams/download the app or watch on the web.

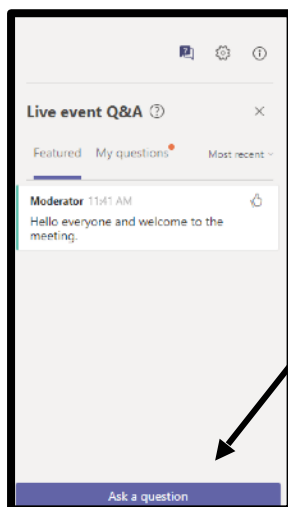

2. Log in to MS Teams.

3. This will take you directly to the Live Event. The screen will open as below and will automatically show the event when it starts.

4. If live questions and answers are enabled, this will show to the right of the window. Any published questions and answers together with any announcements will appear here:

Click here and enter your question if you have one.
